About Us

- Abdul Qader General Contracting and Supply Company is one of the distinguished national companies that has followed thoughtful policies since the start of the first company in 2012 and those policies were based on scientific foundations and realistic and deliberate solutions, The company has been singled out for a vastly growing ambition to achieve major achievements.
- Pursuing a flexible business strategy that seeks to achieve overall leadership in the public contracting sector, which leads to the need to maintain a distinctive footprint in the management and implementation of important and major projects. This is reflected in the volume of projects completed over the past years .
- The company has a good position among companies and is one of the contracting and supply companies. It always combines authenticity and long experience as well as development and use of the latest construction and technology methods .
- The company is always keen to provide many distinguished services in accordance with the required quality standards. The company's activity does not depend solely on the contracting business. We also provide engineering consulting, decorative works, finishes and some other specialized items .

Our Vision

- To be the customer's preferred choice in the field of processing modern facilities in Egypt .

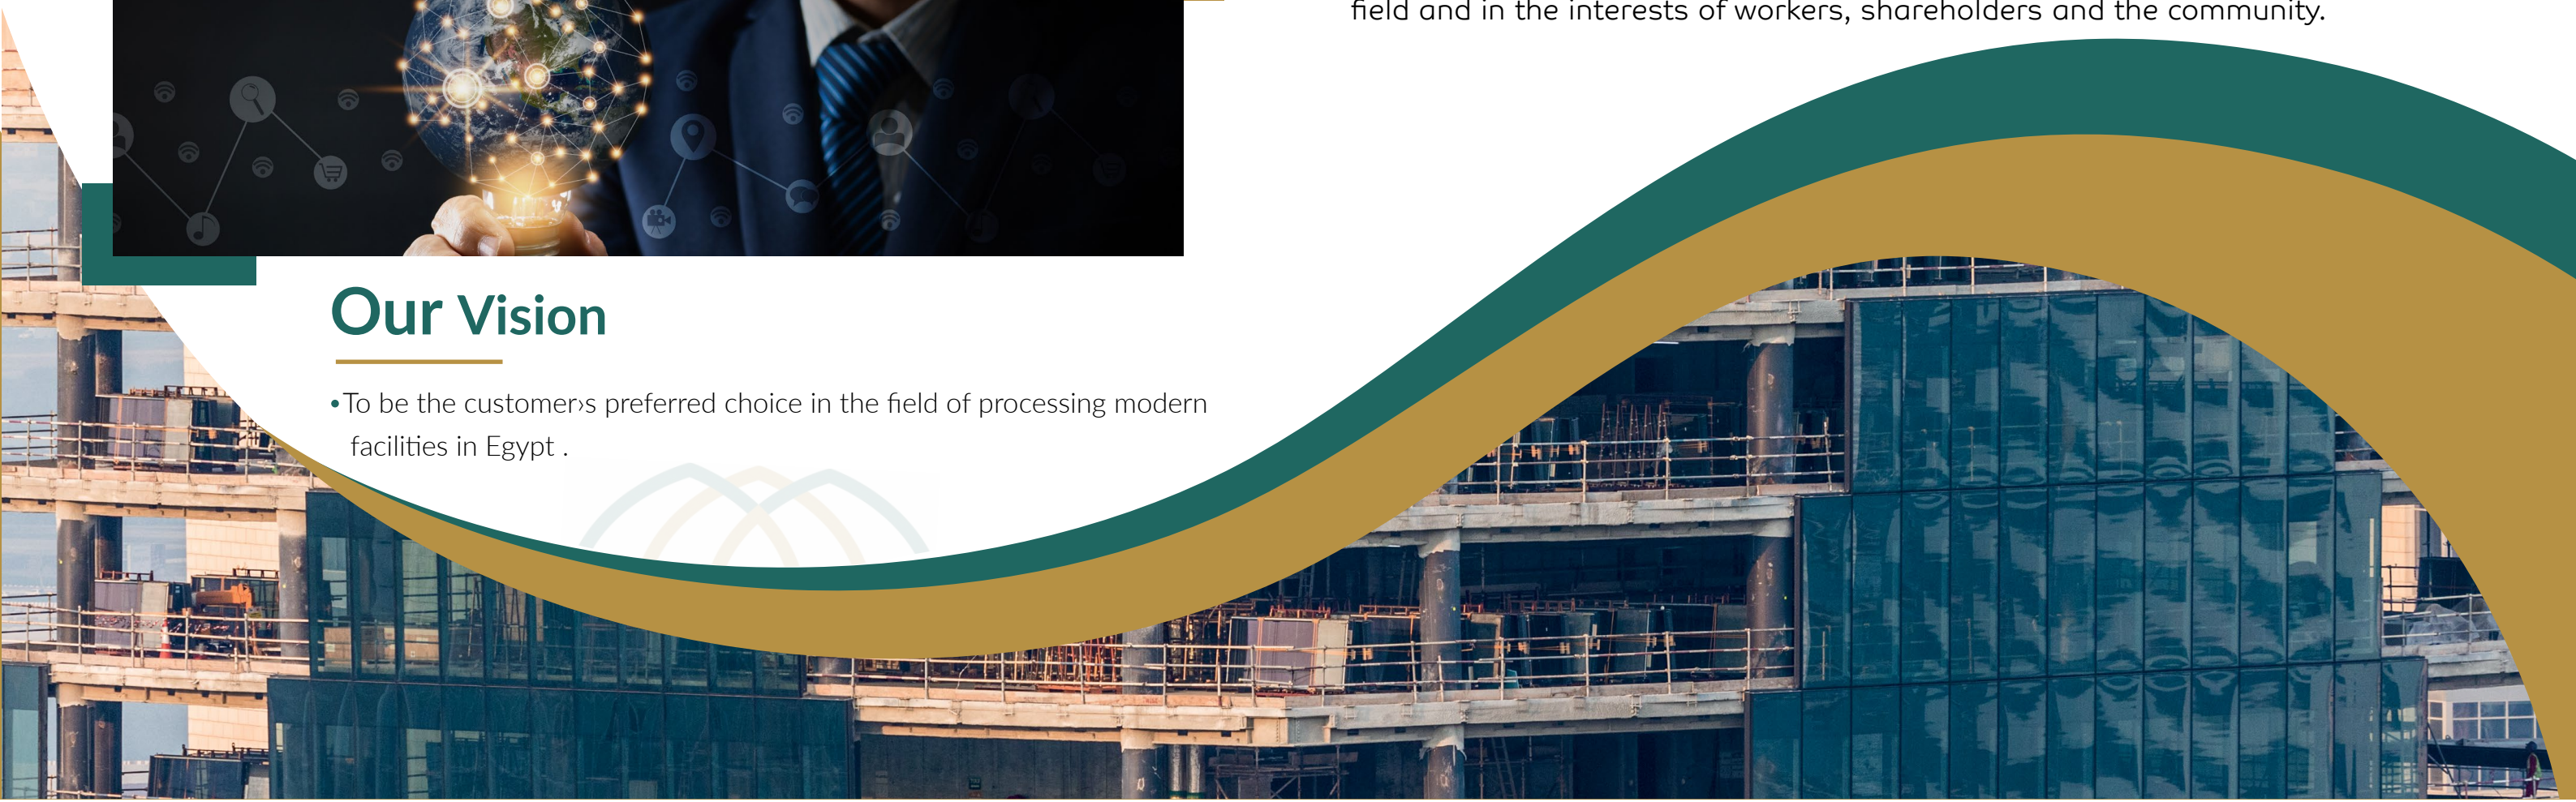

Our Objective

- Always be the best choice for the customer, to carry out everything he needs in our field from only one place at the best quality, service and best price.

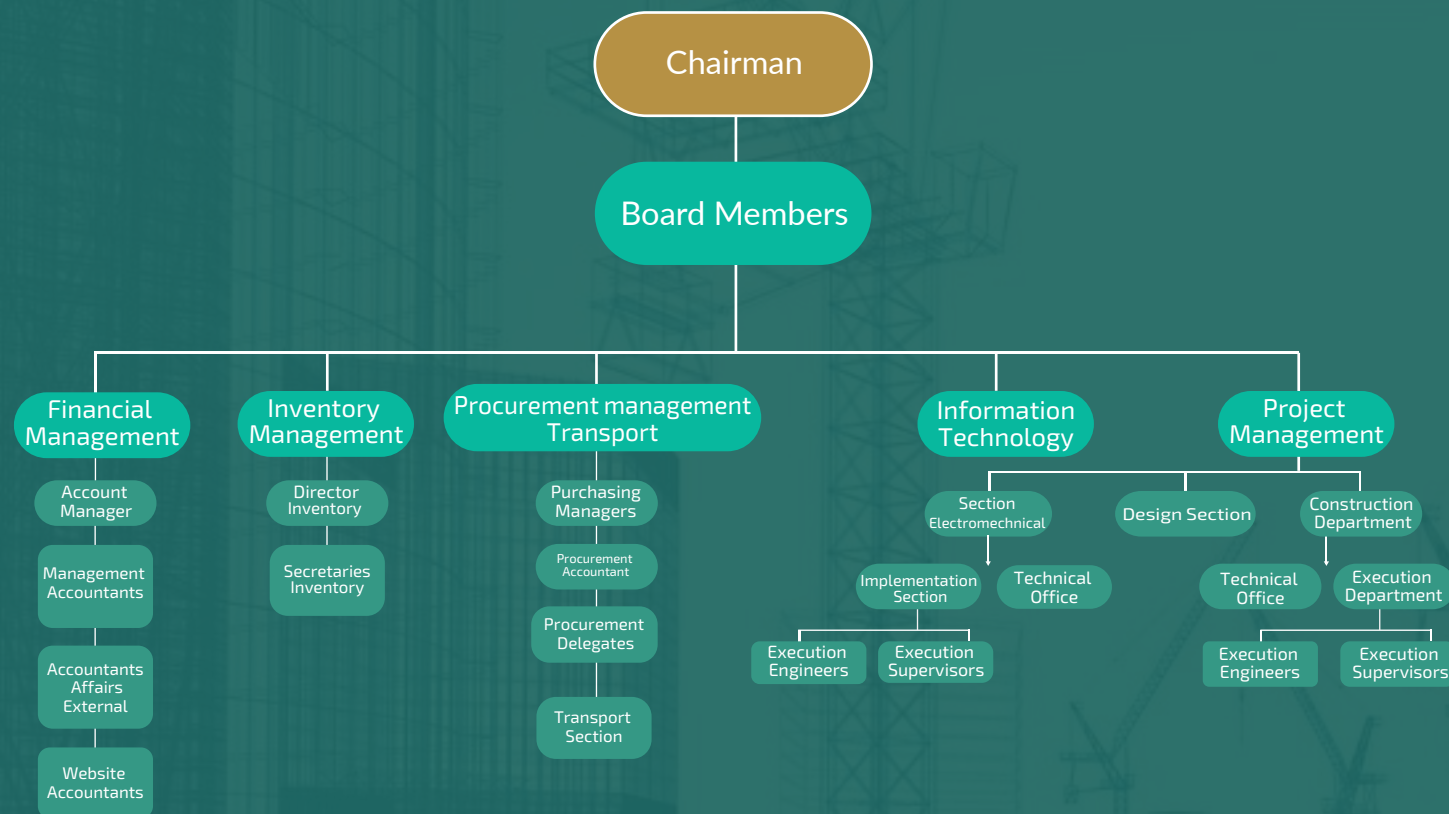

Our Message

- To provide our clients with what meets their wishes to establish and equip modern establishments with a professional level of service supported by our expertise in this field and in the interests of workers, shareholders and the community.

Organizational Structure Of Abdelkader Group

Our Services

• General Contracting

Together, contracting and real estate constitute the solid core of Abdul Qader contracting company's operations. As a leading contractor, the company is eligible to engage in any major projects throughout the Arab Republic of Egypt and beyond.
